1. Last week [REDACTED] and now with [REDACTED] stopped by for a general-purpose chat. It seems his association with [REDACTED] made him knowledgeable of some of the problems involved in handling large amounts of film for PI purposes. Apparently, there is a small group (six or seven) who may leave [REDACTED] shortly and who are very knowledgeable in this area. [REDACTED] felt that they might be valuable to form the nucleus of a small [REDACTED] which would do research in support of photo-interpretation. Being a [REDACTED] they could be made knowledgeable of all of NPIC's problems and function as a focus with various industrial groups to pursue such a program. As you may know, the DD/R has such an arrangement in other fields which has proved very fruitful.
